THE PRINCIPAL AND
BEST ROUTE TO THE WEST

— IS THE —

VANDALIA LINE

AND the reason for it being is apparent to all those who travel between the East and the West. Its trains run solid from Indianapolis to St. Louis, and the service is conceded to be unequalled. Comfortable day coaches that are kept tidy and clean, handsome and elegantly furnished parlor cars with easy sofa chairs go to make the trip from Indianapolis to St. Louis a pleasure rather than a hardship. Pullman Sleeping Cars are run on day and night trains; a local sleeper is also run for the convenience of local travel between Indianapolis and St. Louis, and passengers can get into the car at or near the Union Station any time after 8:30 P. M., and will not be disturbed until St. Louis is reached at 7:00 A. M. Rates are always as low as by less important routes.

THROUGH EXPRESS TRAINS RUN AS FOLLOWS:

Leave Indianapolis 7:30 A. M., 11:55 A. M., 11:00 P. M. Arrive St. Louis 5:00 P. M., 7:30 P. M. and 7:00 A. M., respectively.

THINGS TO BE SEEN.

Do you want to see one of the finest agricultural regions that this country can produce?

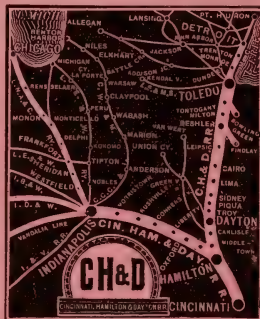

Do you want to see the marvelous natural gas and oil wells in Ohio and Indiana gushing forth their product in sufficient quantities to not only illuminate and heat a score of metropolitan cities, but to generate power enough for innumerable mills and factories?

Do you want to see Findlay, Lima, Celina, Portland, Noblesville, Kokomo and many other cities and towns possessing these wells, teeming with healthy and prosperous advance and affording the merchant, the manufacturer, the speculator and the sight-seer abundant facilities for their respective vocations?

Of course you do, and your wishes can be gratified by taking a trip over the Lake Erie and Western Railroad—"Natural Gas Route"—which passes all the above specified attractions. Solid trains equipped with through coaches, elegant reclining chair cars and combination sleeping and parlor cars, run over its line daily, between Sandusky, O., and Peoria, Ill.; solid trains also run over its line between Indianapolis and Michigan City, with connection for Toledo and Detroit. Close connections to and from all points. Bear this in mind when ready to start.

A GREAT RAILWAY.

—THE—

CHICAGO, MILWAUKEE & ST. PAUL

RAILWAY COMPANY

Now Owns and Operates Over 5,600 Miles of Thoroughly Equipped Road in
ILLINOIS, WISCONSIN,
MINNESOTA, IOWA,
MISSOURI and DAKOTA.

Each recurring year its lines are extended in all directions to meet the necessities of the rapidly populating sections of country West, Northwest and Southwest of Chicago, and to furnish a market for the products of the Greatest Agricultural and Stock Raising Districts of the World.

In Illinois it operates 317 Miles of Track, in Wisconsin 1,332 Miles,
 in Iowa 1,556 Miles, in Minnesota 1,122 Miles,
 in Dakota 1,213 Miles, in Missouri 142 Miles.

And the end is not yet. It has terminals in such large cities as

Chicago, Milwaukee, La Crosse,
St. Paul, Minneapolis, Fargo,
Sioux City, Council Bluffs, Omaha,
Kansas City and St. Joseph, Mo.,

And along its lines are hundreds of large and small thriving cities, towns and villages. Manufacturing interests are cultivated, and all branches of trade find encouragement. The Railway Company has a just appreciation of the value of its patrons, and its magnificent earnings are the result of the good business tact which characterizes the management of its affairs.

The popularity of the line is attested by the fact that notwithstanding the strongest kind of competition of old and new lines, the CHICAGO, MILWAUKEE & ST. PAUL RAILWAY continues to carry the greater portion of all the business between CHICAGO, MILWAUKEE, ST. PAUL and MINNEAPOLIS. It is the best patronized route to and from all points in WISCONSIN, MINNESOTA, DAKOTA and IOWA, and its KANSAS CITY AND ST. JOSEPH LINE will undoubtedly take equal rank with the older lines leading to and from the Southwest.

On all its through lines of travel the CHICAGO, MILWAUKEE & ST. PAUL RAILWAY runs the most perfectly equipped trains of

Sleeping, Parlor and Dining Cars and Coaches.

The through trains on all its lines are systematically heated by steam. No effort is spared to furnish the best accommodations for the least money, and, in addition, patrons of the road are sure of courteous treatment from its employees.

OREGON

The great, new and flourishing State of Oregon offers to the immigrant more substantial inducements for settlement than any of the Eastern States, and to ignorance of its vast resources, the productive quality of its soil, and its mild, delightful climate, may be attributed the fact that so much of its area is still without cultivation. It is being rapidly filled up now, and a decade hence the value of its land and products will have more than doubled.

WASHINGTON TERRITORY

Lying next to Oregon, is also one of the most prolific sections in the Great Northwest, and it is a matter of no small significance that its yield of Wheat, Barley, Flax and Hops for 1885 was nearly double what it was in 1884, and that the products brought a much higher price.

Oregon and Washington are the only two sections in the United States which produced full crops for 1885. See Government statistics.

It Will Pay Every Progressive Farmer

To examine into the advantages of Oregon and Washington, and even if you have no thought of changing your home you should write to one of the undersigned for information, as you should not be ignorant of what this section can produce.

The **Oregon Railway & Navigation Company** furnishes facilities for reaching all portions of the country, and offers special low rates to immigrants. Write to

INTRODUCTORY.

In making our thirty-fourth annual bow to the good people of Indianapolis, through their city directory, we desire to congratulate them and ourselves on the pleasant relations that have so long existed between us. It is now more than a third of a century since the city first reached the dignity of a directory, and for a large part of that period the present publishers have had the honor of furnishing it. How well they have succeeded in representing the steady growth and progress of the city is for the public to judge, though we should regret to have it said or thought that we had fallen short of our duty in this regard in any particular. We have been constantly mindful of the fact that Indianapolis is one of the largest inland cities of the Union, a city not only of great possibilities, but of great actualities. We have realized that in publishing its annual directory we have been in a measure identified with the record of its growth and progress, and to some extent responsible for an accurate and truthful exhibit in this regard. We have tried to meet this responsibility with increasing effort from year to year. The period during which we have been publishing the city directory has been one of steady and almost uninterrupted growth. A comparison of our first directory with the present one would reveal a great many interesting facts, and much forgotten local history. Suffice it to say that during that period Indianapolis has had a great growth. The present directory contains 46,150 names. This enumeration includes, besides the city proper, Haughville, Brightwood, Irvington, West Indianapolis and North Indianapolis, all of which are properly suburbs of the city. At the rate of three persons to a name, which is a fair and moderate estimate, the above enumeration would give a population of 138,450. We estimate the suburban population at 14,000. Deducting this from the total would leave 124,450 as the population within the corporate limits of the city. We think this estimate very nearly correct.

The occasion seems appropriate to congratulate the citizens of Indianapolis on its steady growth, the healthy condition of its trade, and its bright prospects for the future. There is reason to believe that the causes which have contributed to the growth of the city in the past will continue to do so in a still greater degree. Its trade is in a remarkably healthy condition, and steadily improving. Its manufacturing interests, already large, are rapidly increasing. The discovery and introduction of natural gas has given a healthy impetus to the growth of the city, which will certainly increase from year to year. The benefits of this cheap and cleanly fuel have just begun to be realized by the citizens, and are hardly known to outsiders. When they become fully understood they can not fail to prove a great addition to the attractions of the city, and an important factor in its growth. For these, and other reasons, we take pleasure in congratulating the people of Indianapolis on its present condition and future prospects, and inviting the public to study the evidences of its business and resources presented in this volume.

FOR YOUNG LADIES AND GIRLS.

477 North Pennsylvania St., Cor. St. Joe, Indianapolis,

This School offers the best advantages for securing a Symmetrical
and Complete Education, comprising

A Thorough and Extended English Course,

With the Necessary Accomplishments. Academic, Intermediate
and Primary Departments. Address for Catalogue, Etc.,

MR. or MRS. JAMES LYON, Principals.

From the "Woman's News," July 11th, 1888.

The Indianapolis Institute for Young Ladies, at 477 North Pennsylvania street, southeast corner St. Joe street, Indianapolis, is becoming one of the popular educational interests, of its kind, in the city. It is deserving of its present success and all that it bids fair to attain. Mr. and Mrs. James Lyon as its principals bring to their work the aid of fine scholarly attainments, the culture of the best society, the advantages of extensive travel, a deep love for the profession and a conscientious responsibility of their position. The school is spoken of by its pupils and patrons as being delightful in all its details. The principals of Christianity and ethical thought permeate every phase, course and purpose of the Institution. It affords facilities of no inferior order for the acquisition of a good English education, its course of study being practical and comprehensive. Its faculty comprises the best of talent. Mrs. Hattie A. Prunk, of Indianapolis, widely known throughout the country as a successful teacher of Elocution and the art of expression, has charge of this department. M^{lle} Adele Grandjean, of France, resides in the school and has charge of the classes in French, thus affording to pupils advantages not found in any other school in the city. Mrs. A. E. Ferry has charge of the classes of drawing and painting. The lady herself is an artist, and is a superior teacher. Pupils can make the Institution their home if they so desire. The terms are reasonable. Every appointment and facility of the boarding school provides for the comfort and well-being of the pupils. Persons who desire the best of practical school advantages for their daughters or friends will do well to communicate with the principals.

The leading
Inventors and
Manufacturers

of Indianapolis and
vicinity are now and
have been for years
regular clients, as well
as many from other
portions of Indiana and other
States, north, west and south.

One member of our firm spends
a considerable portion of his time
in Washington, D. C., and we thus
have unsurpassed facilities for trans-
acting our business. This arrangement
gives our clients in this portion of the coun-
try the advantage of personal consultations
with their attorneys, and also the advantage
of the personal attendance of their attorneys at
the Patent Office in the prosecution of their cases.

We refer to the banks, express companies, mer-
cantile agencies and leading manufacturers of Indian-
apolis. Inventors will find it to their interest to con-
sult us. Promptness and efficiency guaranteed. Call or write
for pamphlet. Charges always reasonable.
